

New Course Codes

Since the 4-year program is now used in the Physics and Chemistry department, students studying in the 5-year program must add the courses with their new codes according to the table below.

Course Name	Course Code in 5-Year Program	Course Code in 4-Year Program
Theories and Approaches in Teaching and Learning of Science/Mathematics	4200309	4200210
Methods of Science/Mathematics Teaching I	4200511	4200310
Methods of Science/Mathematics Teaching II	4200512	4200411
School Experience in Science/Mathematics Education	4200534	4200433
Practice Teaching in Science/Mathematics Education	4200544	4200446
Computer Applications in Science/Mathematics Education	4200400	4200417*
Instructional Technology and Material Development	4200518	

* Since SSME400 and SSME518 classes are combined and turned into a single course in new program, all three courses will continue to be opened in their own semester.
