

## Science Education Ph.D. Program

In order to complete the Ph.D. Program in Science Education, a total of 21 credits must be completed successfully and at least 7 courses and a seminar course must be completed, 2 of which are compulsory and 5 are elective. In addition to these courses, it is also necessary to be successful in Doctoral Degree Proficiency Exam, Thesis Proposal Defense and Thesis Study. Information about the codes and credits of the program courses are presented in the table below. In cases where the Ph.D. admission committee considers that it is necessary, students who received the master's degree in an area outside the program will be required to successfully complete the recommended courses for the scientific preparation.
